Office Action Summary	Application No. 10/731,416	Applicant(s) ROBERT B. NILSEN	
	Examiner James Phan	Art Unit 2872	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims 4-13, 15, 30-40, 43, 51-68, 70-81 and 83-88 are drawn to an invention nonelected with traverse in the reply filed on 1/27/06. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of claim 44 under 35 USC 102(b) made in the office action mailed 2/15/07 is repeated.

Response to Arguments

Applicant's arguments filed 5/16/07 have been fully considered but they are not persuasive. Applicant has traversed the rejection by arguing (1) that "Sine there is little to no direct contact shown between binder layer 30 and those microspheres that are air-backed (e.g., the three microspheres on the left and the one on the right in the upper layer of FIG. 2), binder layer 30 cannot be said to function as wetting-out such microspheres and plays no role whatsoever in the retroreflection."; and (2) that "Those microspheres that are shown as surrounded or embedded in the binder layer 30 (e.g., the remaining microspheres in the upper layer of FIG. 2) have no air gap." In response the examiner states that the "optical components" stated in the office action are not just microspheres; each of the "optical components" includes a microsphere and a reflecting

layer; that Fig. 2 shows at least one side (front side) of the three optical components on the left and the one on the right in the upper layer is air back and the other side (rear side) of the three optical components on the left and the one on the right is substantially wetted-out; that the argued feature "retroreflection" is irrelevant to the claimed invention because claim 44 does not recite such feature; and that the remaining two optical components does not necessarily have air gap because claim 44 does not recite that all of the components have air gap.

Allowable Subject Matter

Claims 16-29 are allowed.

Claims 45-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
